## EXPERIENCE SUMMARY

### Organization: Adobe Inc.

#### Role: Workfront Technical Architect (March 2024 – Present)

**Job Description:** At Adobe, I play a diverse role of providing technical & business consulting to Fortune 500 clients on **Workfront, Fusion & Content Supply Chain** solutions. Currently I am working as a **CSC Architect/Lead** for complex engagements wherein I am involved deeply in **Presales**, Technical architectural designs & delivery and currently leading the **APAC portfolio**.

As a core member of the Workfront competency, I lead the strategic growth initiatives wherein I am involved in apprenticeship program, POD model delivery and the Tech Quality prioritization team. I also lead the **Pre-sales** team wherein we provide customized business solutions to the prospective client leads. We have scoped over **\$5.6M** worth of business opportunities in the last year and have closed deals worth **\$3.3M** successfully. I have been recognized consistently in both **GDC** as well as other geographical units of Adobe for my contributions.

### Organization: Accenture India Pvt. Ltd.

#### Role: Team Lead (March 2022 – February 2024)

**Job Description:** I worked on a production support project for a Germany-based CGS client as the **Managed Service Owner (MSO)** for the GIB application. I was the main contact for all production issues, responsible for system stability and client communication. I translated business issues into technical terms for my team and vice versa, while also **leading and training** a team of 8 members.

### Organization: Ericsson India Global Solutions Pvt. Ltd.

#### Role: Senior Solution Integrator (January 2020 – February 2022)

**Job Description:** As a development **team lead**, I worked on design, development, unit testing, change requests, bug fixes, delivery, and warranty support for a telecom client of KSA. I was the only IIB developer in the organization, so I led all IIB work and mentored the team. After that project, I handled a Java L3 support project as the sole resource for a telecom client of Norway.

### Organization: Cognizant Technology Solutions India Pvt. Ltd.

#### Role: Associate (Apr'16 – Dec'19) & Programmer Analyst (Aug'13 – Apr'16)

**Job Description:** I joined the organization as a fresher and completed training in Java, .NET, and various middleware technologies. I then started working for a USA-based insurance client, initially focused on development & unit testing. Over time, I took on bug fixing, documentation, delivery, warranty support, and design work. I received several awards and appreciations during this period and also trained new team members in middleware, frameworks, DevOps, and project activities.

## INNOVATION AND R&D ACTIVITY

- Created **Error Handling Framework**, in Fusion that has been widely adopted at Adobe WF competency.
- Developed **A Dynamic Proofing Mechanism**, in Workfront Fusion. This has been implemented for a leading French luxury cosmetics brand.
- Developed **A Synchronization Model**, in Workfront Fusion that synchronizes the metadata between Workfront, AEM & Veeva cutting down the processing time by 95%, making the MLR review process easy and unified. This is being used by a leading global pharmaceutical brand.
- Created **EAD Gateway Framework**, that accepts CMM messages from front-end system, converts it into any structure using XSLT & invokes back-end system. This is used by leading USA based insurance client.
- Developed a **Migration Framework**, that automates the migration process of customer data from legacy system, without any system downtime. This is used by leading telecom client in KSA.
- Created an **XSLT Transformer** tool for implementing XSLT transform & some basic XML utility functions.
- Created a **Visual Mapping** Utility tool that maps XML to XML through UI and generates ESQ/XSLT code.
- Created a **Global Cache Utility** tool for implementing Create, Read, Update and Delete operations directly on global cache of message broker.

## AWARD & RECOGNITION

- Received **Adobe Quarterly Functional Award** in Q1 2025.
- Received **PS EMEA Teamwork & Collaboration Award** in Q3 2024.
- Received **Accenture ACE Award** in 2022.
- Received **Ericsson Rockstar Award** in Q4 2020.
- Received **Cognizant Associate of the Quarter** in Q4 2017.
- Received **Cognizant Shining Star Award** in May 2016.
- Received **Cognizant Shining Star Award** in October 2015.
